Information Disclosure Statement

Assistant Commissioner for Patents
Washington, District of Columbia 20231

Sir:

Attached is a completed Form PTO-1449 and copies of the pertinent parts of the references cited thereon. Following are comments on any non-English-language references pursuant to Rule 98:

PHELPS shows an adhesive device that sticks to the end of a male member, Leffler has a condom similar to prior art but twice as long with several complicated devices, mainly depending on adhesive to keep condom on, FOGGIA HAS a condom similar to condoms of prior art with a flap that encircles the scrotum to hold said condom on, WHEELER has many contrivances attached to his condom to hold said condom in place, however manufacturing this condom would be difficult. WILK has a condom similar to prior art, but double thickness, no real means of holding said condom on male member during intercourse. Secure condoms are simple to make and use and are far superior to any of the above condoms.

Very respectfully,

Applicant(s): Cleon Louis Griffiths

Assistant Commissioner for Patents

Dear Sir;

In regard to the Secure Condom Application, I sent a check made out to U.S. Patent Office when it should have been made out to Assistant Commissioner for Patents. I am enclosing a check made out correctly, so tear up the other check.
